Subject:Work Application

Dear Sir/Madam,

I am writing in response to the available Programmer position advertised on linkedin.com . I have great experience with multiple computer languages, including.net, C#, mvc4 . Additionally, I have a Masters's degree in computer programming and 3 years of experience working as a programmer.

I work in an agile software development environment, collaborating with other departments to ensure a top quality product that meets clients's needs is always produced. I have excellent technical and analytical abilities and my coding strengths as a programmer mean I am able to correctly execute needed code sections with few errors. I have strong verbal and written communication skills and write solid technical manuals for developed applications.

Highly effective web/software developer. A valuable team player who also is personable and dedicated. Seeking the chance to bring further success to an established organization through testing, deployment, and software debugging. Knowledgeable Software/Web Developer skilled in data collection, analysis and management. Works well under pressure and consistently meets deadlines and targets while delivering high quality work.

I fully expect that upon a review of my enclosed resume and qualifications, you will contact me for an interview for the programmer job. I have included both my email as well as my cell number. I can be contacted via either method.

Yours sincerely,

Eduart Hajko
